

Innovative Plastic Accessories

Quality begins with great design...

2009

Discover the GTS advantage! The GTS line of hood deflectors give you unsurpassed performance in windshield and hood protection. Through their aerodynamic design and sleek wrap and non wrap styles, GTS hood protectors deflect insects, rain, and rocks up and over the windshield. Made of tough and durable Composites, our Bug and Omni-Gard will not

flex or flutter. All GTS guards are custom molded to fit most trucks, vans and sport utility vehicles and requires no drilling for installation. Omni-Gard SE is the entry level hood shield while the Omni-Gard is the premiere wrap around hood shield that's slightly taller and made of a thicker Composites material.

OMNI-GARD

- Contemporary wrap-around design
- Protection for hood and windshield
- Installs with “No-Holes-To-Drill”
- Easily removable for quick cleaning
- Available in smoke finish
- Limited Lifetime Warranty
- Lower profile than Omni-Gard

- Sleek, wrap-around styling
- Protection for hood and windshield
- Installs with “No-Holes-To-Drill”
- Made of GTS Composites
- Easily removable for quick cleaning
- Available in smoke, clear, or carbon fiber
- Limited Lifetime Warranty

OMNI-GARD SE

GTS has engineered all hood deflectors to install without any modifications to your vehicle. Each deflector is created to utilize the existing design of the factory hood while enhancing the lines of the vehicle. Not only will a GTS hood deflector offer superior protection for the front of your truck, van or SUV, but will help to create a look that will enhance the

- Contemporary sleek styling

BUG-GARD SE

sculptured lines of today’s vehicles. Clear deflectors can be painted to match. Includes all hardware for an easy installation. Bug-Gard SE is the entry level hood shield while the Bug-Gard is the premiere non-wrap around hood shield that’s slightly taller and made of a thicker Compositite material for increased protection.

BUG-GARD

- Contemporary full height design
- Protection for hood and windshield
- Installs with “No-Holes-To-Drill”
- Easily removable for quick cleaning
- Available in smoke, clear, and carbon fiber
- Limited Lifetime Warranty

NEW

IKÖN 3-PIECE BUG GARD

GTS has worked hard over the last year and a half to develop what we believe is the best looking Bug Gard on the market today. By breaking with the traditional single piece Bug Gard design, GTS styling studio and engineers have designed a Bug Gard that not only looks great but is unlike any other unit on the marketplace today!

THE IKÖN !

The New IKÖN is unique in that it's a 3-piece design that incorporates patent pending engineering. We started with our standard OMNI Gard and re-engineered it to incorporate the IKÖN 3 piece Clamping System. All of the quality features of any GTS hood shield are

incorporated into this new gard. One of the most exciting features of this new product idea is that each IKÖN can be personalized with images of your own choosing. You can add the artwork of your favorite charity or service organization, celebrate the holidays, or show that you support your favorite team. With a high quality digital camera you can create your own image and attach it to the logo disk that goes behind the clear top bezel. Our new website will also include instructions on how to personalize the IKÖN in more detail. In addition, GTS will have designs that can be downloaded and printed at home. Let your imagination go wild. With the new IKÖN you can express yourself with a unique product that also enhances the look and style of your truck or SUV.

Another advantage of the IKÖN's 3-piece design is the smaller 4-color packaging. Each IKÖN box is approximately 50% of the size of a standard bug guard box. This means greater warehouse space savings and a dramatically reduced shipping rate when sending an IKÖN through today's major freight carriers. This equates to lower warehousing costs and up to a 71% savings in shipping costs. The box also has 11 logo images that can be cut out and installed in the special IKÖN medallion. Unique 3-piece design, traditional GTS engineering, proprietary material and substantial savings.....The IKÖN.

The IKÖN box is half the size of a standard bug guard box

GTS side window protectors are designed to create a cool and noiseless vehicle interior while giving your vehicle a sleek aerodynamic look. Made of GTS proprietary Compositelite material, the side window guards attach without any drilling or modification to your vehicle. Custom designed for a perfect fit, these side window guards reduce window fogging and refresh the air within the vehicle interior. The GTS Vent Gard provides

wider coverage allowing for greater window opening without loss of rain and wind protection. The GTS Sport Gard provides a narrower more aerodynamic look while maintaining superior coverage. Most applications are available in both smoke and carbon fiber. Available for cars, trucks, and SUVs in both 2 door and 4 door fitments. Comes complete with instructions and 3M installation tape.

- Fresh air comfort in all weather
- Available for most cars and trucks
- Helps eliminate window fogging
- Easy “No-Holes-To-Drill” installation
- Limited Lifetime Warranty
- Reduces wind noise, drafts, and glare
- Lower profile than Vent-Gard

SPORT-GARD

VENT-GARD

- Superior wind and rain protection
- Fresh air comfort in all weather
- Eliminates window fogging
- Helps keep parked vehicles cool
- Easy “No-Holes-To-Drill” installation
- Limited Lifetime Warranty
- Available for 2 and 4 door vehicles

GTS Snap-in and Bubble side window protectors are custom designed for a perfect fit, for most late model vehicles. These side window guards reduce window fogging and refresh the air within the vehicle interior and are designed to create a cool and noiseless vehicle interior. Made of GTS proprietary Compositite material, the side window gards attach without

any drilling or modification to your vehicle. Comes complete with installation instruction and hardware.. The GTS Bubble Gard uses 3M tape adhesive for a permanent solid mounting to the vehicle. All GTS Bubble Gards are available in 2 door fitments only while the GTS Snap-in Gard is available in 4 door fitments.

SNAP-IN VENT-GARD

- Fresh air comfort in all weather
- Unique "Snap-In" design
- Easy installation with great styling
- Helps eliminates window fogging
- Cools parked vehicles
- Limited Lifetime Warranty
- Reduces wind noise, drafts, and glare

BUBBLE VENT-GARD

- Fresh air comfort in all weather
- "Bubble" design increases coverage
- Ultimate rain and wind protection
- "No-Holes-To-Drill" installation
- Reduces wind noise, drafts, and glare
- Truck front door applications only
