Part No 90800

Jeep YJ 6" front fender Flare support Kit (pair)

For: 87-96 Jeep YJ
Front Flat Panel Flares
#9081 & #9082

PLEASE READ INSTRUCTIONS THOROUGHLY BEFORE PROCEEDING

We have provided complete instructions and specific hardware, The list of these items is listed on the page 2 of the instructions.

--Before starting <u>please verify</u> that they are included with the shipment. Also, <u>verify</u> that you received the correct part(s).

Tools and general materials required: Sockets, socket wrench and hand wrenches, ¼" drill bit and drill.

THERE ARE TWO PHASES TO THIS INSTALLATION:

      1) Removal of the Xenon flares and drilling
      2) Installation of the #90800 support panels (left and right)

PHASE 1) REMOVAL OF FRONT RIGHT AND LEFT FLARES
      -REMOVE the oval side marker light from the flare and save (do not disconnect the wires)
      -REMOVE the Xenon flat panel flares and place them in the sun (on a warm day) or in a warm area with the flares setting on a flat surface mounting hole side down

PHASE 2) INSTALLATION OF THE SUPPORT AND FENDER FLARE

      -Drill out the steel fender mounting holes #2, #3 and #4 with a ¼" drill (the first front mounting hole in the body is considered the #1 hole.

-WITHOUT letting the flares cool install them with the hardware you removed except for holes #2, #3, and #4. Loosely tighten.

Page Two

-**SET** the support panel in place under the flare and loosely tighten the provided ¼ x 20 x 1" bolt, washer and nylon lock nut. Align the flare and now tighten ALL the mounting hardware.

-**REINSTALL** the side marker light assembly.
